

**Jason Moriyama**  
**Lead Design Partner at Moriyama & Teshima Architects**

Jason Moriyama, educated in Ottawa, Los Angeles and Tokyo, received his professional degrees from Carleton University and the Southern California Institute of Architecture (SCI-ARC). Jason's education in Industrial Design and Architecture informs his holistic and deeply integrated approach to design at all scales from hardware details to city planning.

Jason's master planning experience as leader of Moriyama & Teshima's Canadian consortium role for the Holy Cities of Makkah, Madinah and Mashaer in the Kingdom of Saudi Arabia; his current work on the 1340 ha. Education City Masterplan Integrator for the Qatar Foundation; and Kuwait University's New Shadadiyah Campus.

Jason is one of Moriyama & Teshima Architects lead design partners and his exceptional abilities are expressed in most of M&T's award-winning projects including: The Multifaith Centre (OAA Design Excellence Award and "People's Choice Award") and the School of Continuing Studies (OAA "Good Design is Good Business Award") both at the University of Toronto; the Saudi Arabia National Museum in Riyadh; the New Canadian War Museum in Ottawa (2008 Governor General's Medal for Architecture); and the Governor General's Medal winning Bay Bloor Radio flagship store.

Jason's winning Architectural competitions have included: Jabal Omar development in Makkah; Agnes Etherington Art Centre; and Seneca@York; as well as finalists in the Sheikh Zayed National Museum and the New Brunswick Museum.

In addition to cultural projects, Jason has specialized in university design having led some 16 university buildings over his career at M&T. His university buildings include: the prestigious Faculty Club for the Qatar Foundation's Education City; the River and Canal buildings at his Alma Mater, Carleton University; the state-of-the-art new Science Building on the University of Toronto's Scarborough campus; and the signature Desmarais Building on a prominent 'gateway' site in downtown Ottawa.
